**Gerkin Announces:
New Vinyl Single Window Display**

Heavy-Duty Wheels

Brochure Holder

Easy Maneuverability

Two-sided Header Graphic

Dual Graphic Information Panels

The new vinyl single window display by Gerkin is designed to increase sales and product offering to your customers and will compliment any showroom or lumberyard. Designed with portability in mind, the single window display comes with heavy-duty wheels and a tilt handle for easy maneuverability. The display includes a two-sided header graphic, a brochure holder and dual graphics on each side of the display featuring comfort series benefits. Display dimensions are 42"W x 21"D x 72"H and any Gerkin Comfort Series® vinyl window can be ordered for your particular needs. The display price is \$600.00 – ask your Gerkin Sales Representative about available rebate options.

2nd quarter giveaway winners

80th Anniversary Giveaway Promotion

To be eligible to win a house job of windows, the order placed must be marked as "80th Anniversary Great Window Giveaway". The window package can be either Comfort Series Vinyl Windows and Doors or Rhino Windows. All eligible jobs must be a single family home, individual townhome or an individual condo. (Commercial projects or multi-family jobs are not included) These homes can be either new construction or remodel projects. The winning new construction project must be completed with all Gerkin window and patio door products. A combination of Gerkin products and competitor products will not qualify unless Gerkin does not manufacture a product in which the competitor's product was used. Remodel projects must have all windows and doors replaced with Gerkin products and follow the same rules as new construction. (Partial replacement jobs do not qualify)

After a drawing has been made, a Gerkin representative will inspect the winning project to make sure it is eligible for the promotion. After verification, the winner will be announced. Gerkin Windows & Doors will write a check to the owner of the home. The check amount will be at the contractor's verified purchase price of the window and door package. The winner of this promotion is the one who owns the home at the time of the drawing.

Thank you for supporting Gerkin Windows & Doors and good luck!

Project Profile - Introducing Sol

A vibrant, sustainable community of Modern homes with open floor plans, high ceilings with windows that provide plenty of dynamic natural lighting and private outdoor spaces integrated into the architecture of the homes.

SOL is a holistic approach to sustainable development. Through a comprehensive systems approach to building technology and good passive design, these homes are rated 4 to 5 Star by the Austin Energy Green Building Program. The homes are 100% electric and capable of achieving Net Zero* energy - meaning they can produce as much energy as they consume.

Located just 3 miles East of downtown Austin, SOL has a large community green space as well as garden areas. There are many biking, running and walking friendly roadways.

Homes range from 1000 to 1800 square foot and prices start at \$190,000.

*Net Zero projections are based on assumed usage patterns. Energy consumption will vary from household to household.

product innovations

You won't believe what you see in our blinds!

Gerkin offers the perfect solution for sliding glass doors... blinds between the glass. This option for sliding glass doors is as aesthetically pleasing as it is functional. Our blind system gives you complete control, convenience and dependability. The raise, lower and tilt options of our blinds allow you to control temperature as well as privacy and with a protected blind system there is no dusting needed!

Recent Product Enhancements Include:

- Improved spacer design
- A better color match between all white components
- Improved operating system for ease of use
- Privacy channel on the non-operator edge of the blind
- No visible metal spacer showing
- Improved internals in the blind mechanism
- PVC head rail secured to prevent gapping at top due to environmental factors

project profile

Northeast Community College/Wayne State College - College Center

South Sioux City, NE

2011 Completion

\$7.6 Million

Architect – BCDM Architects

Omaha, NE.

Builder – L&L Builders, Sioux City, IA

Dealer – Burnight Glass

The South Sioux City Education Center is a joint effort by Northeast Community College and Wayne State College to meet the post-secondary and vocational education needs of northeast Nebraska students. BCDM assisted with site selection, master planning and implementation of the first building, the College Center.

The overall site design gives considerable emphasis to placement of the College Center to create prominence, establish future traffic flow and allow orderly growth. This beautiful structure touts Gerkin Rhino 5500 fixed windows with a customized painted brown finish. The facility houses classrooms (general purpose, science, nursing), business & industry seminar space, student services, a library and a bookstore.

our commitment

Quality since 1932

Our mission is to manufacture high quality window and door products that are value priced, thermally efficient and low maintenance. Throughout our history we have established ourselves as an innovator in the design and manufacturing capability of insulated windows and doors. Stringent product testing and innovative design has allowed our products to evolve as market and consumer needs change, bringing you the quality, maintenance-free products you desire. We also publish our AAMA test results to back up our claims of product performance and quality.
